NEW JERSEY POLITICS.

A PLENTIFUL LACK OF HARMONY  
 COMPLICATES MATTERS.

And Blasts the Building of Abbot  
 and Sewell—Indiana Legislators at Log-  
 gerhead Over the State Soft Things—  
 Pugnacious Senators—Griffin Signs Tur-  
 pie's Certificate—Minnesota's Capital.

ST. LOUIS, Feb. 15.—Northwest-  
 ern fact that State Secretary Kelsey's  
 official list gives the Democrats to joint leg-  
 islative convention five majority on joint  
 ballot, Monday night, at their joint caucus  
 they looked, rather than to the State Sec-  
 retary, and the Democrats, who are in the  
 majority, are in a minority. The exciting  
 feature of the caucus was the absence of  
 Kelsey. He is the man who bolted the Demo-  
 crats at the organization of the legislature.  
 He was brought back into the Democratic fold  
 in a few days. It is on every tongue  
 that he is in Philadelphia at the instanc-  
 e of the Republicans. It has produced the  
 biggest kind of an explosion in the Demo-  
 cratic camp. Of course Abbot was the  
 nominee of the partial caucus. Speaker  
 Baird continues to bolt. Monday  
 night he outlined without hesitation his  
 course as follows: "I will never vote for Ab-  
 bott for senator. My position is against him  
 and Abbot. I will not attend any Demo-  
 cratic caucus."

The Republicans held their joint caucus  
 Monday night and were surprised by As-  
 semblyman Corbin, of Union, being in the  
 majority. He is a Republican, and has been  
 refusing to consider Corbin as their can-  
 didate for senator. Corbin says he has no  
 personal feelings against Sewell, but that  
 the Republican party should have a man  
 who is a Democrat. Corbin says he has no  
 ticket in Sewell's home, and Hawkins was  
 elected in a similar way. They did not go  
 out of the caucus, but made it plain in their  
 remarks that Sewell will not get their votes.  
 By a viva voce vote the caucus declared  
 Sewell a traitor.

The feeling is that neither Sewell nor  
 Abbot have a chance for election.  
 At the meeting of the house Monday night  
 a question was presented by the Demo-  
 crats, whether the Democrats should be  
 members having elected themselves, and  
 adjournment was immediately taken. The  
 Democrats failed to attend because Kelsey's  
 absence and the unavoidable absence of  
 another Democrat made them in a minority.  
 Thus giving the Republicans all things  
 in their favor for adopting the  
 Republican reports of the contested election  
 committee seating Jones of Mercer, and  
 Haines of Camden. With these men seated,  
 it would be very probable that a Republican  
 United States senator would be elected in a  
 few days. The labor man, Carroll Don-  
 ohue, still keep silent as to his course, but  
 they will probably vote for Eustace Potter,  
 of Essex county, a prominent Greenback  
 Labor advocate. On the following ballot  
 the Democrats claim Carroll, and the Repub-  
 licans claim Donohue. If Sewell with-  
 draws, it is the claim of the Republicans  
 that both men will vote for Congressman  
 William Walter Phelps in the event of Sew-  
 ell's withdrawal.

The excitement attending the caucus  
 Monday night was unprecedented. All  
 kinds of rumors and deals were afloat, but  
 the situation is as quiet as possible outside  
 above. The corridors of the capitol swarmed  
 with innumerable crowds until midnight. Every  
 hotel and boarding house is filled to over-  
 flowing. Senator Sewell and ex-Governor  
 Abbot are personally directing the battle,  
 and they are surrounded by a host of politi-  
 cians and little. Senator McPherson, Con-  
 gressman William Walter Phelps, Hitechcock  
 and Buchanan, Clerk in Chancery Allan  
 Dornick, Secretary of State E. H. Hall, and  
 Court Clerk Lee C. Halsey, are all in the  
 scene. John P. Stockton, and a host of other  
 prominent Jersey men are active in the front  
 of the battle.

More Trouble in Indiana.  
 INDIANAPOLIS, Feb. 15.—The refusal of the  
 Democratic senators to go into joint con-  
 vention to elect officers for the state legisla-  
 ture has resulted in a threatened defeat  
 of the state appropriations. If a joint con-  
 vention is not held the governor will appoint  
 and of course all the appointments will be by  
 Democrats, while the Democrats are afraid to  
 go into joint convention the Republicans  
 will spring some scheme on them. The  
 Republican plan is to have a joint con-  
 vention, and if Democrats should be elected,  
 to have their rights in the capitol and the  
 internal issue get a decision by the courts as  
 to the rights of Senator Smith and Brannan-  
 man, to be used as evidence in the contest for  
 Judge Turpie's senatorial seat, if it should be  
 prosecuted.

The Minnesota Capital.  
 ST. PAUL, Minn., Feb. 15.—Since the un-  
 happy condition of the state capitol building  
 was reported by the committee of archi-  
 tects there have been rumors that an at-  
 tempt would be made to change the location  
 of the capital of the state. There are pretty  
 well defined rumors of a change on the part  
 of Minnesota to get action that will make  
 that city the capital, and the air is blue in the  
 hotel corridors in this city when the topic is  
 mentioned. Representative Reese Monday  
 introduced a bill providing for the removal of  
 the capitol to Kandiyohi county, on the banks of  
 Kandiyohi lake.

Belligerent Hoosier Senators.  
 INDIANAPOLIS, Feb. 15.—In the senate  
 Monday the Republicans offered a resolution  
 calling for the appointment of a stenographer  
 and an attorney for the minority for a  
 hospital investigating committee. A political  
 debate followed, in which Senators Johnson  
 and Tryppett nearly came to blows, and the  
 doorkeeper had to be called to seat them.  
 The resolution was carried out of order. At  
 the afternoon session a bill to repeal the "in-  
 timidation" law of 1881—a measure very ob-  
 noxious to the labor organizations—was de-  
 feated by a vote of 23 to 21.

Foraker for Governor Again.  
 SPRINGFIELD, Ohio, Feb. 15.—Gen. Bush-  
 nell, formerly chairman of the Republican  
 state executive committee, in an interview  
 Monday stated that he is in favor of the  
 nomination of Governor Foraker for an-  
 other term, and believes that the latter will  
 accept the nomination if it is made by ac-  
 clamation. As Gen. Bushnell has himself  
 been mentioned as a candidate, and as he is  
 a close friend of Foraker, his declaration is  
 looked on as settling the renomination of  
 Foraker.

Illiteracy in Louisiana.  
 NEW ORLEANS, Feb. 15.—The friends of  
 education in Louisiana are much humiliated  
 over the report of the secretary of state,  
 which shows that illiteracy is growing rap-  
 idly here, and that the state fails to make  
 sufficient provisions for its schools to keep it  
 down. The statistics show that the per-  
 centage of illiteracy among the whites has  
 increased in the last six years from 15.1 to  
 20 per cent, and among the negroes from 50-  
 2 to 54.3 per cent.

Griffin Signed the Certificate.  
 INDIANAPOLIS, Feb. 15.—Charles F. Griffin,  
 Republican secretary of state, Monday  
 signed the certificate of election to the  
 United States senate of David Turpie. The  
 secretary concluded that his signature was  
 simply an attestation of the governor's signa-  
 ture.

Urgent for a Strong Navy.  
 BOSTON, Feb. 15.—The legislature Monday  
 adopted resolutions urging congress to make  
 liberal appropriations for coast defenses and  
 for the construction of a strong navy.

SUIT AGAINST BEN BUTLER.  
 A Virginiaian Wants \$100,000 for Alleged  
 False Impression.

New York, Feb. 15.—Gen. Benjamin F.  
 Butler was promptly on hand Monday in the  
 United States circuit court, when the suit of

John T. Lester of the "Boston Herald" for \$100,000  
 damages for false imprisonment was re-  
 sumed. The charge is that Mr. Lester went  
 to Washington from his home in Richmond,  
 in January, 1864, and took the oath of alle-  
 giance, and was afterwards arrested on the  
 orders of Gen. Butler, then in command of  
 the forces. Gen. Butler moved to dismiss  
 the complaint on the ground that there is a  
 statute which distinctly provides that no  
 suit for damages for imprisonment during  
 the war of the rebellion, or for any act done  
 under orders of the president of the United  
 States, or the secretary of war, by a military  
 commander should be maintained, except  
 such suit was commenced within two years  
 from the expiration of such sentence or im-  
 prisonment.

Counsel for the complainant said that the  
 general was wrong in his law and in his  
 facts.

John T. Doreville, for Gen. Butler, argued  
 that the military commission which tried  
 and sentenced Mr. Lester to ten years im-  
 prisonment was responsible for its action,  
 and that Gen. Butler had nothing whatever  
 to do with the case beyond designating the  
 prison where Mr. Lester was taken to, and  
 this he was compelled to do by law.

Judge Cox denied the motion to dismiss  
 the complaint at the present time, and  
 Thomas Doreville, a clerk of the war depart-  
 ment at Washington, was called as a witness.  
 He produced several documents going to  
 show that Mr. Lester took the oath of  
 allegiance.

ON THE HEELS OF GILDER.

Two Manitoba Stars to Coast the  
 North Pole.

WINNIPEG, Feb. 15.—Alexander Mac-  
 Arthur, an old resident of Winnipeg, who is  
 a young drug clerk named W. H. Young,  
 started Monday morning on a mission to dis-  
 cover the north pole. They go by ship and  
 Norway house to York factory, the same  
 route taken by Col. Gilder several  
 weeks ago. They took about 1,400 pounds  
 of provisions. MacArthur has been in con-  
 tact with the Smithsonian institute  
 at Washington and other scientific institu-  
 tions, with a view to making explorations  
 in the northern seas, and if possible passing  
 northward in ultimate hope of discovering  
 the long lost continent of Arctica.

With a complete outfit, including cooking  
 utensils, canvas bags weighing twenty-  
 seven pounds, plenty of firearms, and four  
 years' ammunition. Before he left he told a  
 friend he probably will not return for  
 three years. He will also make geologi-  
 cal collections, coast maps, and obtain other  
 scientific information. They take native  
 ponies from Selkirk. At York factory he  
 will provide himself with additional neces-  
 saries before starting further north.

The Striking Longshoremen.

JANESVILLE, Feb. 15.—The striking  
 longshoremen of the Port of St. Lawrence  
 in Liverpool returned Monday morning in a  
 body to obtain work. They stated their  
 terms, which were 40 cents an hour, to Su-  
 perintendent Brewer, who informed them  
 that the companies did not want them at  
 40 cents an hour, nor at 35 cents an hour, which  
 they were getting before the strike. The  
 striking freight-handlers at the Pennsylvania  
 company's freight stations in this city also  
 returned to be reinstated Monday morning.

They were informed by the agents that they  
 would not be wanted until orders were re-  
 ceived from President Roberts. The striking  
 freight-handlers at the Erie yards here also  
 made application in a body to be taken back,  
 but they were refused work. In Hoboken  
 the strikers are still out.

Strangled His Child and Suicided.

OMAHA, Feb. 15.—Jacob Jacobson, a well-  
 to-do Dane, 50 years old, who has for the  
 past sixteen years been foremost of a harness  
 shop in this city, created something of a sen-  
 sation here Saturday afternoon by tying a  
 bed-cord about his baby boy's throat and  
 choking him to death in his crib and then  
 hanging himself in the collar of his coat.

Mrs. Jacobson was shopping and although  
 the tragedy was enacted at 5 o'clock she  
 knew nothing about it until two hours later,  
 when she returned to the house. The shock  
 of the discovery was so great that she was  
 delirious and her recovery is doubtful.

An Odious Investigation.

TOLSON, Ill., Feb. 15.—The residents of  
 Unity and neighboring counties are greatly  
 agitated over a report that has gained cred-  
 ence to the effect that the grand jury of  
 Piatt county is now investigating the lynching  
 of Henry Williams, at St. Albans, Mont., Oct.  
 14, 1892. Williams was well known here  
 and a prominent politician. His friends  
 and relatives are said to be greatly but per-  
 sistent in urging an investigation, but just  
 what has so far been done is yet a grand jury  
 secret.

You May Call a Man a "Crank."

CHICAGO, Feb. 15.—Somebody wrote A. H.  
 Walker, a Hartford, Conn., lawyer, wrote  
 a pamphlet on the "Paine Bribery Case," and  
 the Tribune, of this city, in reviewing it,  
 called it "the effusion of a crank." Walker  
 ordered for libel, placing his damages at \$100,  
 000, and has the case on for next week.

The defense held that "crank" is not de-  
 famatory or actionable, and Monday Judge  
 Biogdott sustained this view. The case will  
 be dismissed at the plaintiff's cost.

Manufacturers Moving Against Free  
 Trade.

BOSTON, Feb. 15.—A large number of the  
 most prominent manufacturers of Massa-  
 chusetts have appointed a committee to con-  
 sider the question of a tariff on foreign  
 goods. The committee is composed of Timothy  
 Merrick, of Holyoke, and Arnold B. San-  
 ford, treasurer of the Globe yarn mills, Fall  
 River, to take action toward the formation  
 of a protective tariff club in opposition to  
 the many free trade clubs.

Failure of a Boston Hardware House.

BOSTON, Feb. 15.—Benjamin Calender &  
 Co., wholesale hardware, 21st Avenue, Boston,  
 have failed and gone into insolvency. Liabilities,  
 \$17,000; assets unknown. The senior partner,  
 Benjamin Calender, died a month ago, and  
 the surviving partners have found the house  
 one of the oldest in Boston in the hardware  
 trade.

 port of the Lehigh Coal and Navigation  
 company shows total revenue, \$1,728,507; total  
 disbursements, \$1,168,499; surplus for 1892,  
 \$559,008; gross receipts of company's rail-  
 roads, \$4,173,800, against \$4,077,523 in 1891.

 land street, New York. He will have charge  
 of the operation and maintenance of the  
 property, reporting to the first vice-presi-  
 dent, Mr. John W. Cloud, is appointed su-  
 perintendent of motive power of the same

 ceed Mr. Soule promoted.

 its are coming to light of J. K. O'Brien, the

 appeared a fortnight ago, and his claims

 President Wright of the First National  
 bank of Fergus Falls, Minn., and \$7,000 by  
 Grommes & Ulrich, of Chicago. It is thought  
 that O'Brien has gone to Vancouver Island.

WANT IN NEWFOUNDLAND

PITIFUL CONDITION OF THE STARVING  
 AND FREEZING PEOPLE.

Ireland Comparatively Happy and Con-  
 tented—Lyons, Mich., Still in the Grip  
 of Ice and Starvation—An Incident of the  
 Flood at Duluth, Minn.—Man and Wife  
 Drowned—The Blizzard.

BOSTON, Feb. 15.—A. S. Johns, N. F.,  
 special to The Herald says: Many prominent  
 business houses here are suffering from  
 a lack of business, and a commercial crisis seems in-  
 evitable. News from the northern parts of the  
 island represents things in a deplorable con-  
 dition. The government has already sent  
 thousands of barrels of flour to keep the peo-  
 ple from starving, but the supply is altogether  
 inadequate. The most northern parts are  
 now frozen in and it is impossible to send  
 supplies there in time to save the people.

It was a most pitiful sight to witness  
 crowds at many places at which the coasting  
 steamer Curlew stopped on her last trip north.  
 Scores of people who had had nothing but  
 codfish and hard-tack (and very little of  
 that) to subsist upon for months dragged  
 themselves across twenty miles of barren  
 rocks and wild waves to where the steamer stopped.

They came in hopes of getting supplies of  
 flour, molasses, and pork enough to keep  
 body and soul together during the next three  
 months. But the steamer had no supplies  
 for them, and discouraged they started to re-  
 turn to their miserable homes to suffer all  
 the pangs of hunger and exhaustion, and to  
 the rigors of a Newfoundland winter.  
 Thousands of people are expected to suffer  
 such large sums in purchasing supplies and in  
 constructing the Picoconia railway to furnish  
 labor, and to save the people of these dis-  
 tricts from starvation, that the treasury is  
 depleted. Added to this is the fact that New-  
 foundland is a free trade country, and owing  
 to the bounty-fod French rivals. It is  
 truly said that the island presents to the  
 world the most mournful spectacle, and its  
 people are the most miserable of all English  
 subjects. Compared with them, the people  
 of Ireland are happy, contented and pros-  
 perous.

TERRIBLE EXPERIENCE.

Disastrous Result of an Attempt at Res-  
 cue—Flooded Lands.

STERLING, Ills., Feb. 15.—Friday after-  
 noon, about 8 o'clock, two young men, Hugh  
 Ramsey and McChlain Fluck, started out in  
 a skiff to the residence of Mr. Delman,  
 which is situated in the submerged district  
 known as the Como bottom, for the purpose  
 of rescuing a family. A signal of distress  
 had been flying from the house, and the  
 young men, supposing they could reach the  
 place, made the venture. The heavy current  
 swept the skiff off its feet, but they managed to  
 hold on to a stump of willow. In this condition  
 they remained until 6 o'clock Saturday  
 morning, when they were rescued by David  
 Turner and Joel Woods.

For sixteen hours, with the thermome-  
 ter a degree below zero. Fluck, it is  
 thought, will die, but Ramsey may recover.  
 The river at this place is higher than has  
 been known before for twenty years. Every-  
 thing is a standstill. Mill and factories are  
 all stopped. The ice has gorged for miles,  
 and grave fears are entertained. At least  
 forty families were driven from their homes.  
 The water came with such a rush not one of  
 them could escape. Many houses and out-  
 ings were carried away. The worst has not  
 come. The electric light machine is buried  
 under six feet of water. The Larchwood  
 breeding-farm is entirely submerged, and  
 some of the stock is in a critical situation.

DELUGE-AFFLICTED LYONS.

The Ice Gorge Solid Again and Every-  
 thing Frozen Tight.

DETROIT, Feb. 15.—An evening Journal  
 special from Lyons, Mich., says: "The ice  
 gorge is frozen solid to a depth of from five  
 to ten feet. The river is still flowing  
 through Main street, and merchants are  
 building trestle-works to their stores, only  
 200 feet apart, and are loading their goods.  
 The weather has settled the water nearly a foot,  
 but made work almost impossible. The men  
 working in the water are coated with ice.  
 The first mail since last Wednesday arrived  
 Monday, being carried on a horse-drawn sleigh.  
 Families who were driven from their  
 homes without a change of clothing are re-  
 turning in boats through the windows to find  
 everything covered with ice.

The ice gorge shows no sign of breaking,  
 extending on a solid glacier five miles long  
 and fifteen or twenty feet thick. The loss of  
 property is enormous and will doubtless  
 reach \$150,000. The Holly water-works  
 building stands in the midst of the flood and  
 has been literally ground to pieces.

A Three Rivers special says: "The water  
 began rising again Saturday afternoon, and  
 Monday morning it was six inches higher  
 than the great flood of 1893. Men were at  
 work all night on the Lake St. Clair track,  
 which is only saved from being washed out  
 by the severe freezing.

Two People Drowned.

Four Madison, Iowa, Feb. 15.—The break-  
 ing of the great ice on the edge of Stunt river,  
 eight miles northeast, on Thursday night,  
 has filled fifteen square miles of low farm  
 land with water averaging five feet in depth.  
 An old negro resident and wife, who were  
 living on the house to higher land, were  
 drowned. Great damage is done to corn  
 and hay stacks. The flood is greater  
 than was ever known about Green Bay  
 township.

Latest from Milwaukee Land.

BISMARCK, D. T., Feb. 15.—A terrible  
 storm is now sweeping the Red River  
 valley, and extends as far west as James-  
 town. Trains from the east are reported  
 twelve hours late. Here a terrible wind is  
 blowing. Snow is badly drifting, and the  
 mercury is 22 below zero.

Wants the Senate of the Vets.

MADISON, Wis., Feb. 15.—Commander-in-  
 Chief Fairchild, of the Grand Army of the  
 Republic, issued a telegraphic circular Mon-  
 day evening, calling upon posts throughout  
 the country to immediately give an expres-  
 sion of views regarding the vetoed dependant  
 pension bill. The commander-in-chief intimates  
 that it is a measure very important to the  
 cause of the veterans, and the members of  
 congress should be made cognizant of the  
 veterans' feelings regarding it.

Opposed to Packed Juries.

LONDON, Feb. 15.—The Standard says sev-  
 eral English Radical members of parliament  
 have arranged a combination to oppose any  
 attempt on the part of the counsel for the  
 crown to pack the jury with men who are  
 likely to be prejudiced against the accused.  
 Dillon, Redmond, Holny, and  
 others in Dublin.

Outrage by Irish Folks.

DUNFERMLINE, Feb. 15.—The police at Dunfer-  
 mline made an unprovoked raid upon a tavern  
 at that place Monday, stole all the liquor con-  
 tained therein and charged upon the re-  
 maining crowd with drawn batons,  
 seriously injuring several persons. The affair  
 created much excitement.

Careful attention to the diet is the  
 best guard against it. It is a fact  
 which all should know, that over-eating  
 not only corrupts the blood but destroys  
 nerve force, and induces dyspepsia, jaun-  
 dice, bad breath, piles, pimples, and liver  
 troubles. Dr. Jones' Blood Purifier  
 cures the above diseases. Can be  
 taken by the most delicate. Price fifty  
 cents. Sold by Prentice & Eyenson.
